

CAPABILITY OVERVIEW

BACKGROUND

Trillion Technology Solutions, Inc (**DUNS: 782927979**), headquartered in the Washington, D.C. Metro Area since 2004, is a leader in providing innovative IT business solutions & services. We use industry best practices to help you improve business agility, optimize data analytics, and control IT costs. Our extensive work with key federal agencies and commercial clients has been recognized with numerous accolades including the prestigious Government Computer News (GCN) Award.

CORE COMPETENCIES

Data Analytics: Specialize in Big Data, open source technologies & commercial frameworks | Guidance & hands-on expertise for enterprise challenges in optimal processing, analytics & visualization

Cloud Computing, Virtualization & System Engineering: Migrate to, and build, on-premises & off-premises hybrid, private & public/community clouds | Offer secure PaaS, SaaS, big data analytics & performance monitoring | Operations and Maintenance (O&M)

Enterprise Architecture & SOA: Leverage EA & SOA frameworks for enterprise level, mission critical, high-availability solutions | Streamline services into manageable & scalable architecture | Establish proper governance | Modernization | Data Migration & Management

Cyber Security: Solutions for PIV/PIV-I/CAC enablement and single sign-on for mission critical applications | Modernize Identity Management Solutions | Custom cyber solutions employing complex algorithms

Agile Methodologies: Guided/coached clients on Agile methodologies and best practices | Successfully implemented Agile methodologies using Scrum & Kanban for 7 federal and commercial programs

Program Management and SDLC Methodologies: PMP, CSM, CSP, PMI-ACP certified personnel with strong experience in SDLC and SELC | CMMI Level 3 certified | Experienced in managing projects both with CMMI level-3 & PMBOK methodologies

OUR VALUES

Employee Focused: Retain high quality staff | Respect all personnel | Create a safe & welcoming environment

Commitment to Quality: Uncompromising Integrity | Exemplify ethical and moral behavior | Be accountable for all actions, and fulfill all obligations

Dedication to Success: Maintain a spirit of going above and beyond to ensure services, products, and solutions help our clients and partners to thrive

Transparent Communications: Maintain open & clear communications to our clients, partners & staff

Trusting Relationships: Build and preserve trusting relationships with our business partners, clients & investors | Foster trust by openly listening, following through on promises, and keeping our word

THE TRILLION ADVANTAGE

MISSION & VISION

MISSION: Trillion achieves high client satisfaction by providing organizations with high-quality enterprise-level IT solutions to enable clients to improve business agility, optimize data analytics, and lower IT costs. We proactively strive to harness existing and cutting edge technologies that put our clients' interest, growth, and profitability first. We equip our clients with cutting-edge products and services, scalable at any level.

VISION: Trillion brings the unique combination of world class experience, top tier technical expertise, innovative thinking, passion for technology, and a dedication to success to our clients. We will transform problems into opportunities through delivery of innovative, timely, cost-effective, and robust solutions.

OUR TEAM

Sri Malladi, President & CEO: Sri has held award-winning technical & management positions with GE, NASA, Computer Sciences Corporation, and Oracle. He served as a trusted advisor during Hurricane Katrina & the Gulf of Mexico Oil Spill. Sri has led multiple public sector & commercial projects and helped several start-up firms deliver sound technical solutions ahead of industry leaders.

Vikram Naik, Chief Operating Officer: Vikram has held technical leadership & management positions within Fortune 100/500 companies and start-ups. He has led teams across multiple time zones in commercial & private sectors. Vikram has been included in 'tiger-teams' to lead & solve critical issues and has received accolades for his technical leadership & insight.

Praveen Chandra, Chief Information Officer: Praveen is known as the "Big Picture Expert" and has been instrumental in providing architectural guidance and leadership to Fortune 500 leaders. He is an expert in SOA, enterprise architecture, governance and network management and has led numerous federal and commercial projects.

Ajmal Kudrolli, Chief Technology Officer: Ajmal has held many lead technical and management positions with industry leaders where his sound architectural and technical thought processes have been crucial to provide guidance on critical issues. He holds an MBA, MS in Computer Science, an MS in Materials Engineering and a BS in Metallurgical Engineering. His other areas of expertise include SOA, Enterprise Architecture, Open Source, Performance Analysis, Data Analytics, Database Applications and Security Protocols.

WHY TRILLION

Trillion Technology Solutions, Inc is a leader in providing innovative IT business solutions and services driven by advanced security capabilities in big data, cloud computing, enterprise architecture & mobile technology.

Founded by Fortune 500, start-up & government alumni, Trillion develops scalable and secure enterprise solutions, helping our clients improve business agility & control IT costs. With expertise in today's most critical IT areas, our team also optimizes complex data analytics to put valuable insights into your hands to enable you to make informed business and IT decisions.

Our solutions are trusted among major federal agencies & multinational corporations, making us a small business powerhouse. Our values emphasize integrity, quality, accountability & trust. You can trust Trillion to provide successful and trustworthy IT solutions.

With SBA 8(a), customers can sole source contracts up to \$4M. The entire process can take less than 30 days.
